Hi Greg!

Just think! Only  
two more days of math  
and Reck! It's been truly  
great knowing you -- rather if-  
ficult. In fact, I hope to see you  
next year. After all, it's only natural  
to have reasonable expectations for a  
perched woodpecker!

## • CLASS HISTORY

The Class of '62 is a state of mind. In order to qualify as a member of it, one must have outspoken opinions on a multitude of subjects, ranging from classical music to astrology, the common denominator being that one knows nothing about them. One must blast other people's girl or boy-friend, drawing on a vast reservoir of comments and comparisons, while pointing out the superiority of his or hers. He must bemoan 'C's or 'C's as ruinous to his grade average and the cause of harsh beatings by his parents. Secretly, of course, he wonders how he accomplished this amazing feat and how overjoyed his parents will be. To add the scent of radicalism, one must be able to relate fictional but entirely convincing episodes in which he boldly left his room at 2 in the morning, crept by the Dean's office, attended a party of 35 people crowded into a floor chief's or coordinator's room, and then returned to his room unscathed.

He must know songs suitable for a Sunday School bus, he must have access to a megaphone, he must have his own special seat at breakfast and lunch, he must downgrade the day pups or boarders, depending on which he is, he must respect the cheerleaders, he must have a super-charged jeep with dual carbs (if he lives on the south side of campus), and most important of all, he must know everything about everyone else, before anyone else knows anything.

Memories are part of his class make-up, too. He remembers Rapps, The Pup, the two-tone eagle, and infamous Freshman Class Party, "What did I write in the margin?", "Trax," The Principia Athletic Union — Velvet Freeze, The victorious athletic teams, "aggressive student government," the Crows, the ol' chem. lab, the "monster," the Fonatics vs. Classics, the Hens, the Prom's, Granville House, Campusology, little yellow slips of paper that read: "See — Immediately!", Oscar, Chicken Delight, bus rides, Henry's, the County Cab Co., and so, so much more.

This is the class that made Prin feared by opponents on the field and court. This is the class that made Student Government a fact and not a word. This is the class that knows what it means to be "cool." This is the class that demands "active honesty." This is the class that found out what the "whole man" was all about. This is the class that refused to be the same as all the others. This is the Class of 1962.

1. *Chlorophyll a* (Chl a) and *Chlorophyll b* (Chl b) are the primary photosynthetic pigments in green plants. They are responsible for capturing light energy and converting it into chemical energy through the process of photosynthesis. Chl a is the most abundant pigment, while Chl b is present in smaller amounts. Both pigments are found in the chloroplasts of green plants.

### OUR SCHOOL SPIRIT

There is a general consensus of opinion around our campus that the biggest and most noticeable gain Principia students have made this year is an increased school spirit.

Three active groups have brought about this change: the cheerleaders, the athletic teams, and a number of conscientious seniors.

The cheerleaders have done a fine job, although at times under powerful criticism they have steered our crowds to high spirits and kept them there.

All athletic teams have done a commendable job. In general, Prin teams have done much better than in recent years in both league standings and sportsmanship.

And a high spirited group of seniors has constantly tried to keep the interest in Prin teams at an all time high.

Many thanks and congratulations

# CONGRATULATIONS, LEAGUE CHAMPS

The "A" Soccer Team of 1961-1962 got their just deserts by winning 8, losing 2, and tying 1, to gain for Principia the ABC-League Championship!

Some of these boys have been playing soccer since their freshman year, and some have been playing on the school's "B" and "C" teams. With this experience and addition to the team this year, demonstrated by their victory over the "B" team, the team romped through their season with great fire and enthusiasm.

At times their enthusiasm dominated them, particularly in the Cleveland game, but they settled down and played their best against John Burroughs. The "A" Soccer Team has the distinction of being the most winning team at Principia this year.

Since the photographers thought it too cold on game days to take pictures of the team in action, we regret to say that we do not have any such pictures.
